

# **SAFETY DATA SHEET**

Alginate Impression Materials

Section 1. Identification		
GHS product identifier	: Alginate Impression Materials	
Other means of identification	: Identic Dust Free, Image, Kromafaze	
Product type	: Powder.	
Relevant identified uses of	the substance or mixture and uses advised against	
Product use	: Dental product: Impression material.	
Area of application	: Professional applications.	
Manufacturer	: DUX DENTAL Inc. 600 E. Hueneme Road Oxnard, CA 93033 Telephone no.: 805-488-1122 or 800-833-8267 Fax no.: 800-444-5170 www.duxdental.com	
e-mail address of person responsible for this SDS	: Contact customer service at 1-800-KERR-123 for any questions	
Emergency telephone number (with hours of operation)	: CHEMTREC® (24 hours) U.S. : 1-800-424-9300 International: +1-703-527-3887	

Section	2.	Hazards	identification
---------	----	---------	----------------

OSHA/HCS status	: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
	Health effects are based on the uncured material.
Classification of the substance or mixture	: EYE IRRITATION - Category 2A CARCINOGENICITY - Category 1A
	SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) (bones, lungs and teeth) - Category 1
	Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 78%
GHS label elements	
Hazard pictograms	
Signal word	: Danger
-	

1/12

### Section 2. Hazards identification

Hazard statements	: Causes serious eye irritation. May cause cancer.
	Causes damage to organs through prolonged or repeated exposure. (bones, lungs, teeth)
Precautionary statements	
Prevention	: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves. Wear eye or face protection. Wear protective clothing. Do not breathe dust or mist. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling.
Response	: Get medical attention if you feel unwell. IF exposed or concerned: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
Storage	: Store locked up.
Disposal	<ul> <li>Dispose of contents and container in accordance with all local, regional, national and international regulations.</li> </ul>
Hazards not otherwise classified	<ul> <li>Handling and/or processing of this material may generate a dust which can cause mechanical irritation of the eyes, skin, nose and throat.</li> </ul>

### Section 3. Composition/information on ingredients

Substance/mixture	:	Mixture
Other means of identification	:	Identic Dust Free, Image, Kromafaze

#### **CAS number/other identifiers**

Product code         : 27098, 27434, 27456, 27475, 27477, 27487, 27488, 27457, 27481, 27484, 27495, 27492, 27492, 27493, 27412, 27416, 27417, 27419, 27460, 27426, 27427, 27429, 27461, 27444, 27452, 27467, 27453, 27497	CAS number	: Not applicable.
	Product code	27492, 27493, 27412, 27416, 27417, 27419, 27460, 27426, 27427, 27429, 27461,

Ingredient name	Other names	%	CAS number
cristobalite	Not available.	30-60	14464-46-1
Alginic acid, potassium salt	Not available.	10-30	9005-36-1
crystalline silica respirable	Not available.	1-5	14808-60-7
dipotassium hexafluorotitanate	Not available.	1-5	16919-27-0

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health and hence require reporting in this section.

### Section 4. First aid measures

#### Description of necessary first aid measures

Eye contact	<ul> <li>No special measures are required. In case of contact with eyes, rinse immediately with plenty of water. Get medical attention if symptoms occur.</li> </ul>
Inhalation	<ul> <li>No special measures required. If inhaled, remove to fresh air. Get medical attention if symptoms occur.</li> </ul>
Skin contact	: No special measures required. In case of contact, immediately flush skin with plenty of water. Get medical attention if symptoms occur.

Date of issue/Date of revision

*issue* : No previous validation

2/12

Section 4. First a	id measures
Ingestion	: Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Get medical attention if adverse health effects persist or are severe.
Most important symptoms/e	effects, acute and delayed
Potential acute health effe	<u>cts</u>
Eye contact	: Causes serious eye irritation.
Inhalation	: Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat and lungs.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
<u>Over-exposure signs/sym</u>	<u>ptoms</u>
Eye contact	: Adverse symptoms may include the following: pain or irritation watering redness
Inhalation	: Adverse symptoms may include the following: respiratory tract irritation coughing
Skin contact	: No specific data.
Ingestion	: No specific data.
Indication of immediate me	dical attention and special treatment needed, if necessary
Notes to physician	<ul> <li>In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.</li> </ul>
Specific treatments	: No specific treatment.
Protection of first-aiders	: In case of major fire and large quantities: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See toxicological information (Section 11)

### Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: Do not use water jet.
Specific hazards arising from the chemical	: No specific fire or explosion hazard.

Date of issue/Date of revision

issue : No previo

Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

### Section 5. Fire-fighting measures

Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides sulfur oxides halogenated compounds metal oxide/oxides Fluoride compounds
Special protective actions for fire-fighters	In case of major fire and large quantities: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures		
For non-emergency personnel	1	Low release. For professional use only. Handling of product in very small amounts or in situations where release is highly unlikely
For emergency responders	:	Low release. See also the information in "For non-emergency personnel".
Environmental precautions	:	Low release. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

#### Methods and materials for containment and cleaning up

Small spill	: Small Quantity. For professional use only. Absorb with an inert material and place in an appropriate waste disposal container.
Large spill	: Small Quantity. For professional use only. Absorb with an inert material and place in an appropriate waste disposal container.

### Section 7. Handling and storage

#### Precautions for safe handling

Protective measures	No special measures are required for small quantities under normal and intended conditions of product use. For professional use only. Put on appropriate personal protective equipment (see Section 8). Handle with care and dispose in a safe manner.
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.
Date of issue/Date of revision	: 08/03/2015 Date of previous issue : No previous validation Version : 1 4/12

# Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **Occupational exposure limits**

Ingredient name	Exposure limits
cristobalite	OSHA PEL Z3 (United States, 2/2013).
	Notes: 1/2[250/(%SiO2+5)]
	TWA: 250 MPPCF / 2 x ( <sup>5</sup> SiO2+5) 8 hours.
	Form: Respirable
	OSHA PEL Z3 (United States, 2/2013).
	Notes: 1/2[10/(%SiO2+2)]
	TWA: 10 MG/M3 / 2 x (%SiO2+2) 8 hours.
	Form: Respirable
	OSHA PEL 1989 (United States, 3/1989).
	TWA: 0.05 mg/m <sup>3</sup> , (as quartz) 8 hours. Form:
	Respirable dust
	ACGIH TLV (United States, 4/2014).
	TWA: 0.025 mg/m <sup>3</sup> 8 hours. Form:
	Respirable fraction
	NIOSH REL (United States, 10/2013).
	TWA: 0.05 mg/m <sup>3</sup> 10 hours. Form: respirable
	dust
	OSHA PEL Z3 (United States, 2/2013).
	Notes: 1/2[30/(%SiO2+2)]
	TWA: 30 MG/M3 / 2 x (%SiO2+2) 8 hours.
	Form: Total dust
crystalline silica respirable	OSHA PEL Z3 (United States, 2/2013).
	TWA: 250 MPPCF / (%SiO2+5) 8 hours.
	Form: Respirable
	TWA: 10 MG/M3 / (%SiO2+2) 8 hours. Form:
	Respirable
	OSHA PEL 1989 (United States, 3/1989).
	TWA: 0.1 mg/m <sup>3</sup> , (as quartz) 8 hours. Form:
	Respirable dust
	ACGIH TLV (United States, 4/2014).
	TWA: 0.025 mg/m <sup>3</sup> 8 hours. Form:
	Respirable fraction
	NIOSH REL (United States, 10/2013).
	TWA: 0.05 mg/m <sup>3</sup> 10 hours. Form: respirable
	dust

Appropriate engineering controls	:	No special measures are required for small quantities under normal and intended conditions of product use.
Environmental exposure controls	:	No special measures are required for small quantities under normal and intended conditions of product use.
Individual protection measu	res	

Hygiene measures	: No special measures are required for small quantities under normal and intended
	conditions of product use.

## Section 8. Exposure controls/personal protection

-	· ·
Eye/face protection	: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles. If operating conditions cause high dust concentrations to be produced, use dust goggles.
Skin protection	
Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
Body protection	<ul> <li>No special measures are required for small quantities under normal and intended conditions of product use.</li> </ul>
Other skin protection	: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	: No special measures are required for small quantities under normal and intended conditions of product use.

# Section 9. Physical and chemical properties

Appearance	
Physical state	: Solid. [Powder.]
Color	: Various
Odor	: Pleasant.
Odor threshold	: Not available.
рН	: Not available.
Melting point	: Not available.
Boiling point	: Not available.
Flash point	: Not available.
Evaporation rate	: Not available.
Flammability (solid, gas)	: Not applicable.
Lower and upper explosive (flammable) limits	: Not available.
Vapor pressure	: Not available.
Vapor density	: Not available.
Relative density	: Various
Solubility	: Various
Solubility in water	: Not available.
Partition coefficient: n- octanol/water	: Not available.
Auto-ignition temperature	: Not available.
Decomposition temperature	: Not available.
SADT	: Not available.
Viscosity	: Various

Date of issue/Date of revision

### Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
	Under normal conditions of storage and use, hazardous polymerization will not occur.
Conditions to avoid	: Elevated temperature
Incompatible materials	: Reactive or incompatible with the following materials: acids.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### Section 11. Toxicological information

#### Information on toxicological effects

#### Acute toxicity

Not available.

#### Irritation/Corrosion

Not available.

#### **Sensitization**

Not available.

#### **Mutagenicity**

Not available.

#### Carcinogenicity

Not available.

#### **Classification**

Product/ingredient name	OSHA	IARC	NTP
cristobalite crystalline silica respirable	-		Known to be a human carcinogen. Known to be a human carcinogen.

#### **Reproductive toxicity**

Not available.

#### **Teratogenicity**

Not available.

#### Specific target organ toxicity (single exposure)

Not available.

#### Specific target organ toxicity (repeated exposure)

Date of issue/Date of revision

7/12

# Section 11. Toxicological information

Name		Route of exposure	Target organs
crystalline silica respirable	Category 1 Category 1 Category 2	Inhalation	lungs lungs bones and teeth

#### **Aspiration hazard**

Not available.

Information on the likely routes of exposure	:	Routes of entry anticipated: Oral, Dermal, Inhalation.
Potential acute health effects		
Eye contact	:	Causes serious eye irritation.
Inhalation	1	Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat and lungs.
Skin contact	1	No known significant effects or critical hazards.
Ingestion	:	No known significant effects or critical hazards.

#### Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: Adverse symptoms may include the following: pain or irritation watering redness
Inhalation	: Adverse symptoms may include the following: respiratory tract irritation coughing
Skin contact	: No specific data.
Ingestion	: No specific data.

#### Delayed and immediate effects and also chronic effects from short and long term exposure

<u>Short term exposure</u>	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
<u>Long term exposure</u>	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Potential chronic health eff	<u>ects</u>
Not available.	
<b>Conclusion/Summary</b>	: Breathing excessive silica dust for a long time can cause silicosis.
General	<ul> <li>Causes damage to organs through prolonged or repeated exposure. Repeated or prolonged inhalation of dust may lead to chronic respiratory irritation.</li> </ul>
Carcinogenicity	: May cause cancer. Risk of cancer depends on duration and level of exposure.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
Date of issue/Date of revision	: 08/03/2015 Date of previous issue : No previous validation Version : 1 8/12

### Section 11. Toxicological information

#### Developmental effects Fertility effects

: No known significant effects or critical hazards.

: No known significant effects or critical hazards.

#### Numerical measures of toxicity

#### Acute toxicity estimates

Route	ATE value
Oral	17739.8 mg/kg

### Section 12. Ecological information

**Toxicity** 

Not available.

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

Not available.

#### Mobility in soil

Soil/water partition : Not available. coefficient (Koc)

Other adverse effects

: No known significant effects or critical hazards.

### Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

### Section 14. Transport information

	DOT Classification	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-
Transport hazard class(es)	-	-	-
Packing group	-	-	-
Date of issue/Date of r	evision : 08/03/2015 Date o	f previous issue : No previous vali	dation Version :1 9/12

### Section 14. Transport information

Environmental hazards	No.	No.	No.
Additional information	-	-	-

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to Annex II of MARPOL 73/78 and the IBC Code

### Section 15. Regulatory information

U.S. Federal regulations	: 1	United States inventory (TSCA 8b): All components are listed or exempted.
		Clean Water Act (CWA) 307: polychloro copper phthalocyanine; Boron zinc hydroxide oxide
		Clean Water Act (CWA) 311: trisodium orthophosphate; Formaldehyde; Boron zinc hydroxide oxide
Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs)	: 1	Not listed
Clean Air Act Section 602 Class I Substances	: 1	Not listed

State regulations	
Massachusetts	<ul> <li>The following components are listed: SILICA, CRYSTALLINE, QUARTZ; CRISTOBALITE DUST</li> </ul>
New York	: None of the components are listed.
New Jersey	<ul> <li>The following components are listed: COPPER compounds; GYPSUM; SILICA, QUARTZ; QUARTZ (SiO2); ZINC compounds; SILICA, CRISTOBALITE; CRISTOBALITE (SiO2)</li> </ul>
Pennsylvania	: The following components are listed: COPPER COMPOUNDS; GYPSUM (CA(SO4). 2H2O); QUARTZ (SIO2); ZINC COMPOUNDS; CRISTOBALITE (SIO2); SILICA AMORPHOUS DIATOMACEOUS EARTH (UNCALCINED)

#### California Prop. 65

WARNING: This product contains a chemical known to the State of California to cause cancer.

Ingredient name	Cancer	Reproductive	No significant risk level	Maximum acceptable dosage level
cristobalite	Yes.	No.	No.	No.
crystalline silica respirable	Yes.	No.	No.	No.
Formaldehyde	Yes.	No.	Yes.	No.

### Section 16. Other information

#### Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

Date of issue/Date of revision : 08/0	3/2015 Date	of previous issue	No previous validation	Version	:1	11/12
