SAFETY DATA SHEET

Aluminum Chloride Hemostatic Gingival Retraction Solution

| Section 1. Identification | | | | |
|------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|
| GHS product identifier | : Aluminum Chloride Hemostatic Gingival Retraction Solution | | | |
| Other means of identification | : Hemodettes, Hemogin-L, Styptin | | | |
| Product type | : Liquid. | | | |
| Relevant identified uses of | the substance or mixture and uses advised against | | | |
| Product use | : Dental product: Hemostatics | | | |
| Area of application | : Professional applications. | | | |
| Manufacturer | : DUX DENTAL Inc. 600 E. Hueneme Road Oxnard, CA 93033 Telephone no.: 805-488-1122 or 800-833-8267 Fax no.: 800-444-5170 www.duxdental.com | | | |
| e-mail address of person responsible for this SDS | : Contact customer service at 1-800-KERR-123 for any questions | | | |
| Emergency telephone number (with hours of operation) | : CHEMTREC® (24 hours) U.S. : 1-800-424-9300 International: +1-703-527-3887 | | | |

| Section 2. Hazards identification | | |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------|--|
| OSHA/HCS status | : This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). | |
| | Health effects are based on the uncured material. | |
| Classification of the substance or mixture | : SKIN IRRITATION - Category 2 EYE IRRITATION - Category 2A | |
| | Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 1.1% | |
| GHS label elements | | |
| Hazard pictograms | | |
| Signal word | : Warning | |
| Hazard statements | Causes serious eye irritation. Causes skin irritation. | |
| Precautionary statement | <u>s</u> | |

 Date of issue/Date of revision
 : 10/06/2015
 Date of previous issue
 : No previous validation
 Version
 : 1
 1/11

Section 2. Hazards identification

| Prevention | : Wear protective gloves. Wear eye or face protection. Wash hands thoroughly after handling. |
|----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Response | : IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash it before reuse. If skin irritation occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. |
| Storage | : Not applicable. |
| Disposal | : Not applicable. |
| Hazards not otherwise classified | : None known. |

Section 3. Composition/information on ingredients

| Substance/mixture | : | Mixture |
|----------------------------------|---|--------------------------------|
| Other means of identification | : | Hemodettes, Hemogin-L, Styptin |

CAS number/other identifiers

| CAS number | : Not applicable | 9. | |
|------------------------------|------------------|----------------------------------|----------------|
| Product code | : 13150, 13052 | , 13057, 13058, 13156 | 6, 13157 |
| Ingredient name | | Other names | % |
| glycerol potassium hydroxide | | Not available. Not available. | 30-60 0.1-1 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health and hence require reporting in this section.

CAS number

2/11

56-81-5 1310-58-3

Section 4. First aid measures

Description of necessary first aid measures

| Eye contact | : No special measures are required. In case of contact with eyes, rinse immediately with plenty of water. Get medical attention if symptoms occur. |
|--------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation | No special measures required. If inhaled, remove to fresh air. Get medical attention if symptoms occur. |
| Skin contact | No special measures required. In case of contact, immediately flush skin with plenty of water. Get medical attention if symptoms occur. |
| Ingestion | : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Get medical attention if adverse health effects persist or are severe. |

 Most important symptoms/effects, acute and delayed

 Potential acute health effects

 Eye contact
 : Causes serious eye irritation.

| Inhalation | : No known significant effects or critical hazards. |
|--------------|-----------------------------------------------------|
| Skin contact | : Causes skin irritation. |
| Ingestion | : No known significant effects or critical hazards. |
| | |

 Date of issue/Date of revision
 : 10/06/2015
 Date of previous issue
 : No previous validation
 Version
 : 1

Section 4. First aid measures

Over-exposure signs/symptoms Eye contact : Adverse symptoms may include the following: pain or irritation watering redness Inhalation : No specific data. **Skin contact** : Adverse symptoms may include the following: irritation redness : No specific data. Ingestion Indication of immediate medical attention and special treatment needed, if necessary Notes to physician : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. **Specific treatments** : No specific treatment. **Protection of first-aiders** : In case of major fire and large quantities: No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

| - | - |
|------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Extinguishing media | |
| Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media | : Do not use water jet. |
| Specific hazards arising from the chemical | : In a fire or if heated, a pressure increase will occur and the container may burst. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon dioxide carbon monoxide metal oxide/oxides Hydrochloric acid fumes |
| Special protective actions for fire-fighters | In case of major fire and large quantities: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

Date of issue/Date of revision

: 10/06/2015 Date of previous issue

Section 6. Accidental release measures

| Personal precautions, protect | tive equipment and emergency procedures |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| For non-emergency personnel | : Low release. For professional use only. Handling of product in very small amounts or in situations where release is highly unlikely |
| For emergency responders | : Low release. See also the information in "For non-emergency personnel". |
| Environmental precautions | : Low release. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| Methods and materials for co | ntainment and cleaning up |
| Small spill | : Small Quantity. For professional use only. Absorb with an inert material and place in an appropriate waste disposal container. |
| Large spill | : Small Quantity. For professional use only. Absorb with an inert material and place in an appropriate waste disposal container. |

Section 7. Handling and storage

Precautions for safe handling

| Protective measures | : | No special measures are required for small quantities under normal and intended conditions of product use. For professional use only. Put on appropriate personal protective equipment (see Section 8). Handle with care and dispose in a safe manner. |
|--------------------------------------------------------------------|---|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on general occupational hygiene | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| Conditions for safe storage, including any incompatibilities | : | Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

| Ingredient name | | | Exposure limits |
|------------------------------------------------------------------------------------------------------------------|--------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| TWA: 5 mg/m ³ 8 hours fraction TWA: 10 mg/m ³ 8 hours OSHA PEL (United Sta | | OSHA PEL 1989 (United States, 3/1989). TWA: 5 mg/m ³ 8 hours. Form: Respirable fraction TWA: 10 mg/m ³ 8 hours. Form: Total dust OSHA PEL (United States, 2/2013). TWA: 5 mg/m ³ 8 hours. Form: Respirable | |
| potassium hydroxide | | | fraction TWA: 15 mg/m ³ 8 hours. Form: Total dust ACGIH TLV (United States, 3/2015). C: 2 mg/m ³ OSHA PEL 1989 (United States, 3/1989). CEIL: 2 mg/m ³ |
| ate of issue/Date of revision | : 10/06/2015 | Date of previous issue | : No previous validation Version : 1 4/1 |

Section 8. Exposure controls/personal protection

| NIOSH REL (United States, 10/2013). TWA: 2 mg/m ³ 10 hours. |
|-------------------------------------------------------------------------------|
| |

| Appropriate engineering controls | : No special measures are required for small quantities under normal and intended conditions of product use. |
|----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Environmental exposure controls | : No special measures are required for small quantities under normal and intended conditions of product use. |
| Individual protection measu | es |
| Hygiene measures | : No special measures are required for small quantities under normal and intended conditions of product use. |
| Eye/face protection | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles. |
| Skin protection | |
| Hand protection | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Body protection | : No special measures are required for small quantities under normal and intended conditions of product use. |
| Other skin protection | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory protection | : No special measures are required for small quantities under normal and intended conditions of product use. |

Section 9. Physical and chemical properties

| Appearance | |
|----------------------------------------------|---------------------------------------------------------------------------------------|
| Physical state | : Liquid. [Clear, slightly viscous liquids, green or clear, with a bitterseet taste.] |
| Color | : Green. or Clear. |
| Odor | : Spearmint or Odorless. |
| Odor threshold | : Not available. |
| рН | : Not available. |
| Melting point | : Not available. |
| Boiling point | : >100°C (>212°F) |
| Flash point | : Not available. |
| Evaporation rate | : <1 (Water = 1) |
| Flammability (solid, gas) | : Not applicable. |
| Lower and upper explosive (flammable) limits | : Not available. |
| Vapor pressure | : Not available. |
| Vapor density | : Not available. |
| Date of issue/Date of revision | : 10/06/2015 Date of previous issue : No previous validation Version : 1 5/11 |

Section 9. Physical and chemical properties

| Relative density | : 1.25 |
|--------------------------------------------|-----------------------------------------------------------------|
| Solubility | : Soluble in the following materials: cold water and hot water. |
| Solubility in water | : Not available. |
| Partition coefficient: n- octanol/water | : Not available. |
| Auto-ignition temperature | : Not available. |
| Decomposition temperature | : Not available. |
| SADT | : Not available. |
| Viscosity | : Not available. |

Section 10. Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|--------------------------------------------------------------------------------------------------------|
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| | Under normal conditions of storage and use, hazardous polymerization will not occur. |
| Conditions to avoid | : No specific data. |
| Incompatible materials | : Reactive or incompatible with the following materials: metals. |
| Hazardous decomposition products | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

Section 11. Toxicological information

Information on toxicological effects

| Product/ingredient name | Result | Species | Dose | Exposure |

Section 13. Disposal considerations

Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Section 14. Transport information

| | DOT Classification | IMDG | ΙΑΤΑ |
|-------------------------------|--------------------|----------------|----------------|
| UN number | Not regulated. | Not regulated. | Not regulated. |
| UN proper shipping name | - | - | - |
| Transport hazard class(es) | - | - | - |

The following components are listed: 1,2,3-PROPANETRIOL

California Prop. 65

None of the components are listed.

Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
